

Coates

Equipped for anything

Supporting your rail maintenance

When performing rail maintenance and construction work, you need to complete the job safely, efficiently and on schedule. Coates has a range of specialised rail tools and equipment, along with mobile tool trailers and ancillary equipment, to keep your planned works on track.

Benefits for your business

One-stop shop

Coates has everything you need for efficient maintenance works, from welding, grinding and clipping equipment to lighting, generators and consumables.

Experienced partner

Drawing on decades of experience, our team bring extensive product knowledge and a deep understanding of critical maintenance activities.

Trusted supplier

Coates works with most major construction and maintenance companies, so we likely already have a commercial agreement in place with your business.

Flexible pricing

Choose a daily or long-term hire rate. Lock in your costs with a bulk-rate package, or hire tools by the day for as long as you need them.

Metro and regional hubs

We make it easier and faster to get the gear you need. Save on transport and collect from our Sydney or Newcastle hubs, or we can deliver to your site.

Safety and compliance

We provide equipment specs, logbooks and RIW cards for field service teams, and our HSEQ system is certified to ISO 9001, 14001 and 45001 standards.

Explore our rail tools range

With Australia's largest fleet, Coates is equipped to deliver all the tools and equipment you need for your next rail maintenance project. Here's a selection – speak to a Product Specialist to find out more about our full range of rail tools and equipment.
