

Contractor Worker Registration in SafetyHub

Welcome Valued Contractor Worker to SafetyHub

SafetyHub allows our contractor workers to self-register in the system, upload license information and complete Coates Inductions. Prior to commencing any work for Coates Contractor Workers must be registered, inducted and marked as "Active" in the system.

Contractor Worker Safety Requirements

Contractor Workers must:

- Register themselves in SafetyHub.
- Ensure they load copies of all licenses and certifications relevant to the work they are carrying out for Coates.
- Successfully complete the Coates General Contractor Induction.

Transport & Driver Contractors must also:

 Successfully complete the Coates Contractor Induction, Transport Driver Induction, Driver JSEA and Safe Zone Training.

QR Induction Codes / Entry to Coates Sites

All inducted and approved contractor workers will receive a QR Code in SafetyHub that acts as an induction card. You can save the QR code on your smart phone in photo's or the wallet function. QR Codes must be presented to Coates Branch Managers upon arrival at site for verification of a contractor workers "Active" status in the system. Contractor worker status can also be manually looked up by searching the contractor workers name in SafetyHub. Any contractor worker who does not have an "Active" status upon arrival at site will be instructed to complete registration/induction before commencing and / or will be turned away.

Existing Coates Suppliers / Contractor Workers transiting to SafetyHub

Existing Contractors Workers who are transitioning from Coates current contractor management system to SafetyHub will have their current Induction status transferred into SafetyHub and will be given until the 31st January 2022 to complete the additional registration and contractor induction requirements.

If you need assistance with SafetyHub

If you need assistance further assistance with SafetyHub please contact Coates on Contr.Mgmt@coates.com.au

Approval Status in SafetyHub

To check your contractor status, go to the "Contractor Workers" tab. If you have successfully completed all of your registration and induction requirements you status in the system will be "Active" and you can commence carrying out work for Coates.

Completing 2 yearly Induction and Training

Every 2 years SafetyHub will send you an automatic email reminder to refresh your inductions and training courses. This is mandatory. If you Induction and Training expires your contractor status will become inactive and you will not be able to carry out work for Coates until you meet your induction and training requirements.

Consultation / Incidents

From time to time Coates may request that you participate in consultation meetings or incident investigations. If this occurs you will be able to see the records of these interactions under the consultation / incidents tabs in your account.
